❖ ERP system should have web portal as well as mobile app (compatible with android and iOS) as per requirement of different modules.

Above points just provides an overview of the minimum desired features in the proposed Web based system that should not only enable and ensure the entry of correct data in real time but the system required that it should invariably be used even by the not so diligent people, keeping the security of the system intact. If the university wishes to have some special features in the system at any stage of the life of project, the vendor has to provide that without any extra charges. Vendor is expected to deliver a product that will be rich in state-of-art features available in such management systems.

CRSU would engage the vendor on a managed services model for a period of **five years** after one-year warranty period from the date of go-live. In particular, the vendor must provide ERP software, installation, commissioning, physical raw data entry, maintenance, regular backup, and complete support for a period of five years after one-year warranty period from the date of go-live. CRSU expects the complete system to go live in 12 months after the order has been awarded. Managed services will also include providing bug fixing, enhancements, upgrades, functional and technical onsite training of CRSU personnel, and other relatedactivities. The vendor will take the end-to-end ownership as a single point contact to ensure smoothfunctioning of the IT operations by providing requisite resources.

The following sections provide the overview of functionalities of various modules of the ERP. **However**, the <u>bidder has to undertake study of CRSU User requirements and develop ERP accordingly.</u> CRSU ERP will have broadly following major modules, however the system must have provision to create new modules and sub modules:

### SERVICE LEVEL AGREEMENT (SLA)

# (This is just brief overview of SLA document. Detailed document will be prepared by bidder on the basis of this Annexure.)

Service Level Agreement (SLA) is the contract among the Chaudhary Ranbir Singh University, Haryana (CRSU) and successful bidder for executing the ERP System. SLA defines the terms of the Bidder's responsibility in ensuring timely implementation and satisfactory performance of the ERP Project based on the agreed Performance Indicators as detailed in the Agreement. Penalties are not meant to be punitive. The primary intent of Penalties is to ensure that the system performs in accordance with the defined service levels. This section defines various Service Level Indicators for this Project.

### 1. Implementation Phase

The Table below summarizes the Indicative Performance Indicators for the services to be offered by the bidder. This is not an exhaustive list. A complete Service Level Agreement will be made with the successful bidder at the time of signing the contract.

### <u>T</u> in the following points means the Date of Award of Work.

# 1.a) System Study: Study the processes of CRSU functioning and detailed assessment of functional requirements for SRS preparation for ERP

Baseline Metric	T + 2 Months
Lower Performance Metric	T + 3 Months
Violation of SLA	More than $T + 3$ Months
	Warning letter may be issued and a meeting with authorities above the Project Manager in the Bidder's organization may be called.

### 2. Post Implementation Phase

- **2.a) Measurement of SLA:** The Measurement of SLA parameters shall be decided by CRSU which will be binding on the bidder. **However, bidder should submit indicative SLAs along with their technical proposal.**Bidder has to provide necessary monitoring software for SLA Monitoring. The followings must be reported through the SLA Monitoring tool:
  - Availability of the Critical functionalities of the Application
  - ➤ Complete details including the resolution time of all call logged at Helpdesk
  - > Proper call monitoring process.
  - > Progress reports
  - > Details of change requests
- **2.b) Violations and Associated Penalties:** The performance will be measured for each of the defined service level metric against the minimum / target service level requirements and the violations will be calculated accordingly.

- ➤ VERY HIGH Level Issues: Major system failure which has an immediate critical impact on the CRSU's ability to perform its duties, inability to perform office functions. For example, the non-availability of complete ERP system. Penalty applicable for each of the VERY HIGH severity violations is 5.0% of respective quarterly payment to the bidder.
- ➤ HIGH Severity Level Issues: Major Component failure which has an immediate impact on one or more departments / sections of CRSUto perform its duties, inability to perform office functions. For example, the non-availability of some module or sub-module of the ERP system. Penalty applicable for each of the HIGH severity violations is 2.0% of respective quarterly payment to the bidder.
- ➤ MEDIUM Severity Level Issues: Minor component failure which has an impact on the ability of some section / department of CRSU to perform its duties that while not immediate, but can cause service to degrade if not resolved within reasonable time frames. For example, the non-availability of some specific functionality within a module or sub-module of the ERP system. Penalty applicable for each of the MEDIUM severity violations is 1.0% of respective quarterly payment to the bidder.
- ➤ LOW Severity Level Issues: Component Failure not causing virtually any significant impact on CRSU's ability to operate significant daily critical back-office functions. Penalty applicable for each of the LOW severity violations is issuance of warning letter to the bidder.

The number of violations in the reporting period for each level of severity will be totalled and used for the calculation of Penalties. It is to be noted that if the overall Penalty applicable for any of the review period during the currency of the contract exceeds 25% or if the overall penalty applicable for any of the successive quarter periods during the currency of the contract is above 15% then CRSU shall have the right to terminate the contract. Total penalty will not exceed 20% of the value.

This service level will be monitored on a monthly basis. The below tables give details on the Service Levels, the bidder (system integrator) should maintain:

### (i) Functionality of ERP Modules

- ➤ **VERY HIGH Level Issues** shall be resolved within 6 business hours from the time of reporting.
- ➤ **HIGH Severity Level Issues** shall be resolved within 8 business hours from the time of reporting.
- ➤ **MEDIUM Severity Level Issues** shall be resolved within 48 Hrs. from the time of reporting.
- ➤ **LOW Severity Level Issues** shall be resolved within 96 hours from the time of reporting.

Each instance of non-meeting this service level will be treated as 01 (one) violation.

(ii) Unauthorized access, usage, theft and loss of university data: Bidder has to provide 100% fail-proof mechanism to prevent unauthorized access, usage, theft and loss of university's data by any means by anyone related to Bidder.
