### **3. Guiding Principles**

CRSDU being an institution which has created and adopted best practices across its organizational operations, expects all its partners also to follow the same. In view of this, CRSU has framed the following guiding principles to be adhered to by interested participants. The best practices may be more than what are specified below:

- The proposed solution must be based on Micro Services Architecture (MSA) principles and must adhere to a SOA based integration model across various applications of the IT portfolio.
- The proposed solution should be an Integrated, Scalable, Modular User-friendly and Highly Available.
- The proposed solution should have load balancing and distributed deployment capabilities.
- The proposed solution must implement role-based access for authentication and authorization to various modules and applications.
- The proposed solution must implement latest open source technology and support future technologies like Internet of things (IOT), Artificial Intelligence (AI).
- The proposed solution must implement dashboards and KPIs which help in quick decision making.
- The proposed solution must implement BIRT reports for taking export as MS Excel, Word and PDF formats.
- The proposed solution must implement a multi-level security across various tiers and software layers of the IT platform.
- Best practices from the industry must be implemented across the tiers and layers of the proposed solution and across various phases of the software development life cycle.

#### **3.1 Software Support and Maintenance Practices**

Software support and maintenance for a period of five years post go-live of the software platform is mandatory and part of the scope of work of the proposed program. The selected bidder must ensure that the technology / platform of the proposed software (application and system included) be of the latest version as published by the OEM (where applicable) and made available at no extra cost to the University.

#### **3.2 Software Licensing**

The University would require various software licenses (OEM or otherwise) to be made available for use enterprise wide and not be restricted to the number of users, devices or membership. The University would prefer a CPU/core based licensing that it could use to scale further while not being constrained with the number of users or devices.

#### **3.3 Setup and Commissioning**

Installation, Setup and Commissioning of the system to host the software servers along with the portfolio applications will be part of the scope of work. Ensure that all non-functional requirements are catered to and will be part of the design and the proposed solution. The server infrastructure and connectivity requirements along with the data

center details will be provided by CRSU to the selected bidder for configuration.

### **3.4 Documentation**

Providing all design, documents, user and operational manual.

#### 4. Eligibility Criteria/Prequalification

The bidder must possess the requisite experience, strength and capabilities for providing the services necessary to meet the requirements, as described in the EoI document. The bidder must also possess the technical know-how and the financial wherewithal that would be required to successfully provide the IT applications, systems and support services sought by CRSU. The bids must be complete in all respect and should cover the entire scope of work as stipulated in the EoI document. The invitation to bid is open to all bidders who qualify the eligibility criteria as given below. Eligibility criteria are mandatory and any deviation in the same will attract bid disqualification.

<b>S.No.</b>	<b>Criteria</b>	<b>Document to be provided</b>
i.	The bidder should be a company registered under the Companies Act, 1956.	Certificate of Incorporation.
ii.	The bidder must have successfully implemented at least one similar University Management System in University/Govt. institute of repute having at least 10000 student's registration.	Documentary proof from earlier institute/university where the project was completed. List of successfully completed projects indicating cost, customer name & address. The proof should be applicable to the responder only and not for its sister-concern or subsidiary or parent company.
iii.	Bidder must have ISO 9001:2000 and ISO-27001 or other such certification.	Valid Copy of Certificate
iv.	The bidder or each member in case of a consortium should have positive net worth and an annual turnover of more than INR 02 Crore or above.	Practicing Chartered Accountant Certificate for Net worth and Copy of the last financial years audited balance sheet of the company.
v.	The Bidder should not be under a Declaration of Ineligibility or black listed with any of the Government/ Public sector unit Agencies	Self-Declaration from Authorized Signatory of the Bidder
vi.	Able to provide total integration & solution.	Self-certification.

## **5. EoI Submission**

Bidders may download the EoI documents from the CRSU website and must be submitted on or before 24/02/2020 upto 3:00 PM through registered post or speed post or byhand.

## **6. Bid Evaluation process**

All responses including the proposed solution(s) received by CRSU shall be evaluated by an Evaluation Committee duly constituted by CRSU, on the basis of eligibility criteria mentioned in this document. The responders will present the solution before the Committee as per schedule published on website. Only the eligible bidders will be informed of their selection and RFP will be issued to them.

CRSU shall be at liberty to reject any response received from any company or consortium for the Expression of Interest in reply of notice inviting Expression of Interest dated 03/02/2020.

**Registrar**

## Annexure "A"

### 7. Annexure

## 7.3 Annexure "B"

The following notes offer guidance to proposing responder in the form of a model outline for their response document. All the headings indicated below must be addressed in the sequence shown, providing as much relevant detail as possible. (Conformance to this outline will assist the subsequent evaluation and selection activities, and any variations should be documented).

Additional headings and information may be provided by the proposing responder where they are required to include additional details or explanations.

Description of the proposing responder:

- I. Specifically include legal status, ownership, and the name of the person within the company who is responsible for this project.
- II. The proposing responder's general understanding of the project requirements and the proposed total solution.
- III. The main features of the proposed solution and any areas of financial, operational, development risks that are perceived.
- IV. Upgrade and technology refresh strategy for the proposed software platform.
- V. Describe the strategy suggested for future upgrade of the supplied equipment and / or products and any impact this strategy may have on operation etc.
- VI. Scope of work compliance as per the document

#### 7.4. Annexure “C”

### UNDERTAKING

**(To be submitted by the responder on the responder’s letter head)**

I/We hereby undertake that I/We have studied and understood the Expression of Interest document completely.

I/We hereby undertake that I/We understand that the Section Scope of Work and Requirement of this Eol is indicative only and not exhaustive in any manner and that the final scope of work and technical specification will be decided by CRSU at their discretion.

I/We hereby undertake that I/We understand that the CRSU reserves the right to finalize the scope of work and requirements at its discretion, which may be based on my/or proposed solution and/or any other responder’s proposed solution and/or as decided by the CRSU. I/We hereby declare that I/We shall not be having any claim and/or right for the said usage. I/We hereby undertake to provide the requisite OEM authorization as and when required and/or asked for by CRSU, as per the solution and/or requirements, as decided by CRSU at their discretion.

I/We hereby undertake that I/We hereby undertake that I/We understand that the CRSU reserves the right to float a separate tender for the scope of work and requirements as mentioned above of this Eol irrespective of the outcome of this Eol. I/We understand that in such a case I/We shall bid separately for that tender and in no case our response to this Eol shall be deemed as a bid for the said tender.

I/We hereby undertake that the CRSU reserves the right to short list responder(s) for further tendering of this Eol and in case of my/our response being rejected I/We shall have no claim of any short in the further tendering process. Further CRSU shall be at liberty to allow any company to respond in the tender process at the stage for “Request for Proposal” irrespective of the fact that the company allowed has participated in the Eol or not and I/We shall have no claim of any sort on such process.

I/We hereby undertake that we shall comply with the scope of work and requirements and there are no deviations of any manner in this regard from my/our side.

I/We hereby undertake that in case my/our response to this Eol is short listed I/We agree to bid for the further tender as and when asked for by CRSU based on the terms and conditions and technical specifications and scope of work as finalized and decided by the CRSU at their discretion.

I/We undertake to be the single point of contact for CRSU and shall be solely responsible for all warranties, upgrades, and guarantees etc. offered by the OEM, and system integration and facilities management and for the entire scope of work and requirements as per the service levels defined in the subsequent tender document.

I/ We here by affirm that our response is valid for a period of 90 days from the date of Eol submission.
